The Greenhouse Project is an intergenerational space that centers, art, food and climate justice. We see climate justice as an intersectional movement, one that strives to be accessible and inclusive and recognize the importance of collective liberation. We believe in radical skill sharing, collaborative learning and active listening. The space is intended to provide opportunities for community teaching and learning experiences through workshops, programming and events. The GHP was founded by L Gilbert and Dav Bell-follow us on instagram @_the_greenhouse_project_

LUDDITE at the ICA Santa Fe is a store, a market, and a support mechanism for local makers in Northern New Mexico and beyond that will privilege the impulse to re-orient ourselves against progress... Against progress to the detriment of hyper-capitalism. Against Progress for the benefit and respect of all living beings. 906 S. St. Francis Dr. Santa Fe NM, 87505
